Dear Commissioner Henney,

I wholeheartedly support the
petition filed by CSPI to ban the
use of medically useful antibiotics
in animal feed. I am also in
favor of labeling irradiated foods
in the supermarket and on
restaurant menus. I do not wish
to unknowingly buy and consume
irradiated foods. Thank you for
your help in these matters.

As a member of the Center for Science in
the Public Interest (CSPI), I urge you to
save human lives by banning the use of
medically useful antibiotics in animal feed.
Adding antibiotics to feed in order to pro-
mote growth can make bacteria resistant
to those antibiotics. And that can leave
physicians with no way to treat life-threat-
ening bacterial infections in humans. That's
why I support the petition filed by CSPI.

Sincerely,
Liz Tapp
